

TECHNICAL DATA SHEET

ReMoa Tri®

Triple-Action Insecticide Space Spray

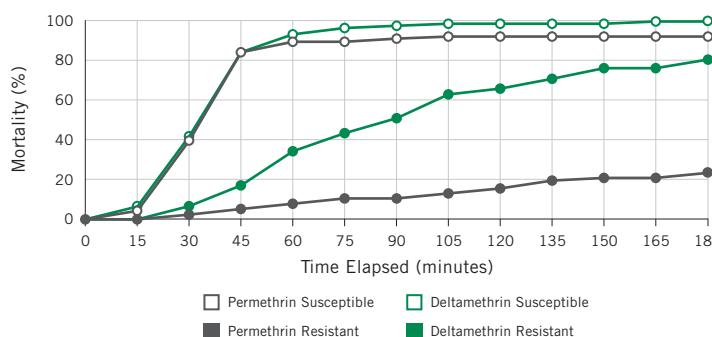

EFFICACY STUDIES

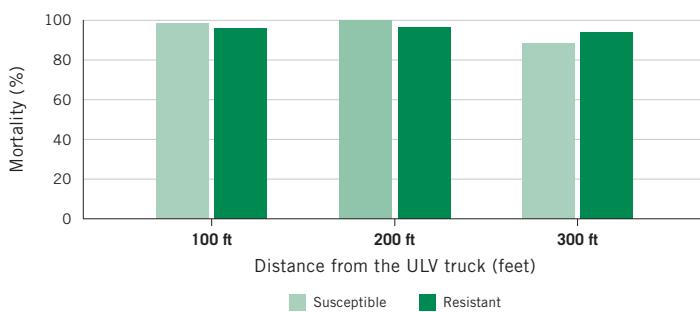

California *Culex pipiens* resistant strain and *Culex quinquefasciatus* susceptible strain

Data courtesy of Sacramento-Yolo Mosquito and Vector Control District

1 Bottle Bioassay (15 µg permethrin, 22 µg Deltamethrin)

2 Outdoor Truck mounted ULV

Florida resistant *Culex quinquefasciatus* strain

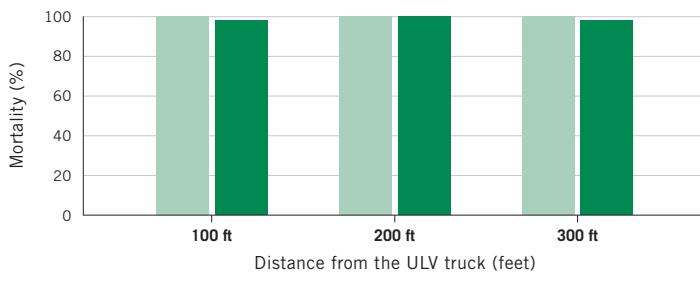

Data courtesy of Collier Mosquito Control District

3 Bottle Bioassay

CDC diagnostic dose (µg)	Active ingredient	Diagnostic time (min)	Collier <i>Culex quinquefasciatus</i> % mortality at diagnostic time	Collier <i>Culex quinquefasciatus</i> % mortality at 2 hrs	Collier <i>Culex quinquefasciatus</i> % mortality at 24 hrs
15 µg/bottle	Pyrethrum	45	38%	59%	27%*
20 µg/bottle	d-Phenothrin	45	48%	51%	67%

*Recovery indicates *kdr* resistance

4 Outdoor Truck Mounted ULV

TECHNICAL DATA SHEET

ReMoa Tri®

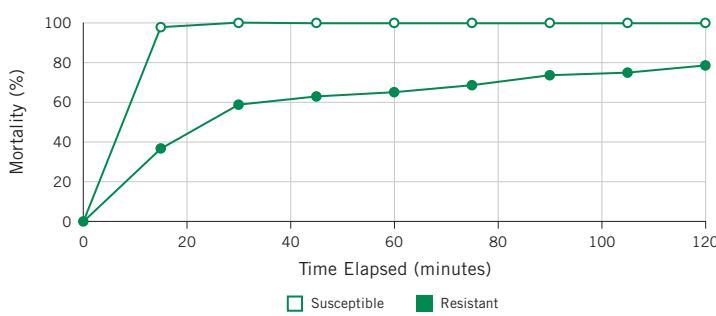

Triple-Action Insecticide Space Spray

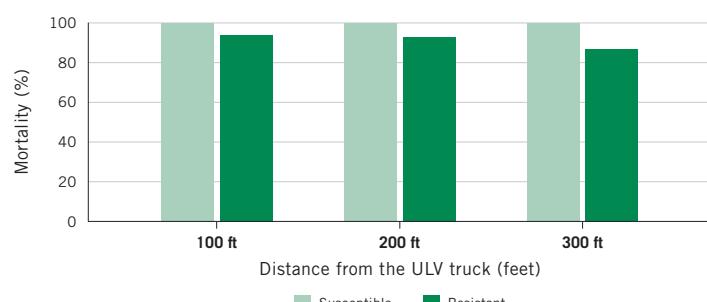

EFFICACY STUDIES

Puerto Rico resistant *Aedes aegypti* strain

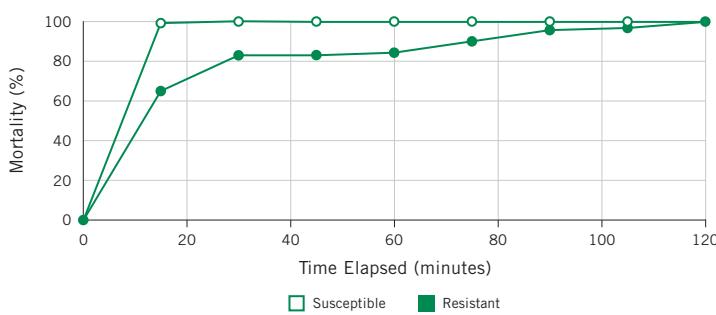

5 Bottle bioassay (15 µg permethrin)

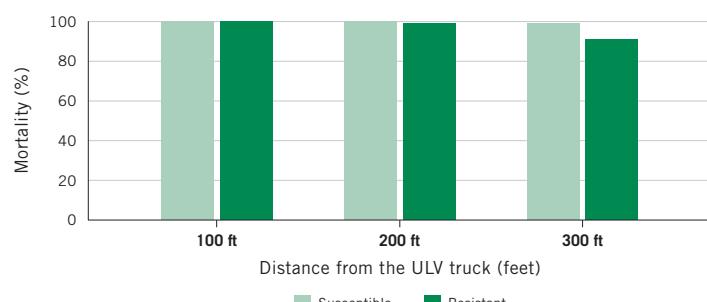

6 Outdoor Truck Mounted ULV

Florida resistant *Aedes aegypti* strain

7 Bottle bioassay (15 µg permethrin)

8 Outdoor Truck Mounted ULV

TECHNICAL DATA SHEET

ReMoa Tri®

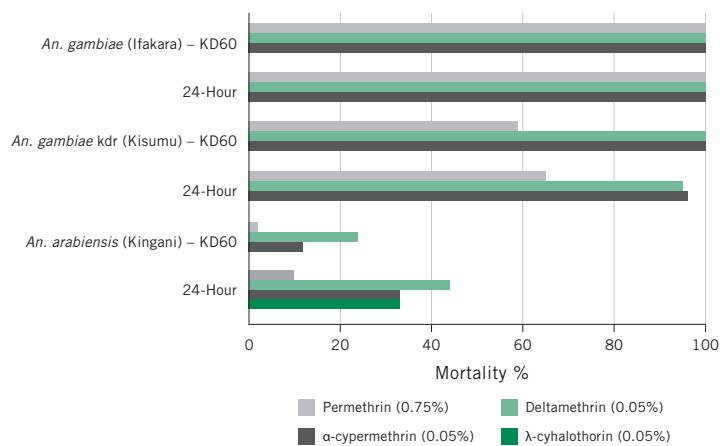

Triple-Action Insecticide Space Spray

EFFICACY STUDIES

Tanzania resistant *Anopheles* strain

9 WHO Resistance Tube Tests

10 Outdoor Backpack ULV
